Towing and Traffic Company Regulations

5/4/26

These are official regulations that will be implemented immediately and will be followed without question, or result in a major violation.

I. **Towing Companies are not allowed to tow a car that is visibly and clearly involved in a scene without the permission from a high command on scene.**

II. **Towing Companies are allowed to tow a car for being abandoned in the middle of the road, even a car with ELS on**

III. **Towing Companies are not allowed to non consensually tow a staff car**

IV. **Companies are not allowed to do roadwork without permission from Staff**

V. **Towing Companies are not allowed to tow a vehicle with a person inside**

VI. **Towing Companies are not required to drop vehicles if requested by owner**

VII. **Towing Companies are not allowed to store cars in any other place than the impound lot.**

Towing Companies are not allowed to tow parked cars on private property for any reason without being given permission by the owner, even if parked illegally

VIII. Towing Companies are not exempt from lawful action, even with their ELS active.

IX. Towing Companies that charge for tows are required to keep sufficient proof of ownership every vehicle they tow

X. Towing Companies are not allowed to tow a vehicle apart of a car crash, until the scene has resolved or a party respawned/FRPed

XI. Traffic Companies are not allowed to in any way impede on the action and progression of a scene for traffic control. They are expected to work around the scene and not ever interfere with it.

XII. In the event of a faulty or tow rushing towing of a car, if proven to be a true statement, the company will be expected to administer punishment to the driver, or receive a company strike for harboring such actions.

For any questions addressing the regulations and or general questions, create a ticket.

Signed,
Director of Operations
